Education Advisory Committee (EAC)

Science Central is looking for enthusiastic teachers to become a part of our Education Advisory Committee (EAC). The EAC is an integral part of the education team at Science Central and assists the Education Department.

There are many benefits associated with becoming an EAC member. Besides the intangible benefits of knowing you are a crucial part of improving inquiry-based science learning in northeast Indiana, there are tangible rewards too! We offer an incentive program based on a point system. The more you volunteer, the more points you can accrue to trade for programs. For more information about how you can join the EAC, contact the Education Director at (260) 424-2400 x 442.
